Education

2025-2026
Technion - Division of Continuing Education - UX Design Course

Specialized in research-based UX, aligning business goals with user needs. Expertise includes user research, defining personas, User Stories, and Information Architecture. Proficient in mapping sitemaps and user flows, and developing Low to High-Fidelity prototypes to validate and optimize user experiences.

2010-2014
Shenkar College of Engineering, Design and Art

Bachelor of Design (B.Des), Visual Communication
Specialized in motion design

Tools

Figma
Figma Design, Design System, Prototyping, Figma Make, Dev mode, Figma agents.

Claude 🤖
Code generation & experimentation, Figma integration, UX/UI research, rapid prototyping, Design System expansion, and workflow optimization.

Experience

Product designer	• Conducted UX research, identifying user needs and pain points
-	• Designed and resolved complex B2B interfaces.
2025-2026	• Created prototypes for visualization and usability testing.
Freelance	• Utilized Figma Make for brainstorming and exploring conceptual ideas.

Product designer	• Designed and led complex, multi-scenario user flows.
-	• Created high-fidelity prototypes for validation and fundraising.
2024-2025	• Delivered UX through agile iterations.
Syntero	• Collaborated closely with the product and engineering teams.

Senior UI designer	• Directed UI concepts for complex B2B systems.
-	• Established design systems and high-fidelity prototypes.
2017-2024	• Refined UX through client feedback loops and iterative testing.
UI - Human factors	• Led design teams and partnered with product and R&D to ensure seamless execution.
	• Specialized in transforming complex workflows and heavy data into intuitive, pixel-perfect interfaces.
